S. Teufel, Switzerland

V. Tschammer, Germany

SCOPE

The I3E 2005 conference is the fifth IFIP conference on e-Commerce, e-Business, and e-Government sponsored by the three committees TC6, TC8, and TC11. It provides a forum for users, engineers, and scientists in academia, industry, and government to present their latest findings in e-commerce, e-business, or e-government applications and the underlying technology to support those applications. The conference will be organized in three parallel tracks: research track, industrial and administration track, and European projects track. Areas of particular interest include but are not limited to:

e-Commerce

• Digital goods and products	• e-Negotiations, auctioning and contracting
• B2B, B2C, and C2C models	• Agent-mediated e-Commerce
• e-Marketplaces, e-Hubs and portals	• Pervasive technologies for e-Commerce
• Dynamic pricing models	• P2P-computing for e-Commerce
• e-Payment systems	• e-Commerce content management
• Consumer protection in e-Commerce	• User behavior modeling

e-Business

• Innovative business models	• Enterprise application integration
• Business process re-engineering	• Virtual enterprises and virtual markets
• Supply, demand, and value chains	• Virtual organizations and coalitions
• Customer relationship management	• e-Collaboration and e-Services
• Inter-organizational systems	• Future work environments for e-Business
• Business process integration	• e-Work
• Inter-workflow	• Mobile business

e-Government

• G2G, G2B, and G2C models	• Mobile public services
• Digital cities and regions	• Multimedia and multilinguism
• e-Democracy and e-Governance	• Digital culture
• e-Inclusion to information society	• Trust and security
• e-Health and e-Education	• Legal societal and cultural issues
• Public e-Services for citizens and enterprises	• Public-private partnerships
• One-stop government – service integration	• International dimension of e-Gov.

INFORMATION FOR AUTHORS

Submission of Papers

For the research track, submissions should describe original, research work not submitted or published elsewhere. For industrial track, submissions should describe innovative products or good practices in the areas of conference interests. For European projects track, submissions should describe Networks of Excellences, clusters of projects, and projects themselves, in particular, their aims, goals and achievements. The proceedings of the conference will be published by Springer within the IFIP book series. The papers should be no longer than 15 pages according to the template available at: http://www.wkap.nl/subjects/single_column_proceedings_vol. An author who need help with the templates should contact AuthorSupport@springer-sbm.com. The author responsible for correspondence, including the author's name, mailing address, telephone and fax numbers, and e-mail address has to be identified. One of the authors of each paper must register and present the paper at the conference.

ADDRESS FOR SUBMISSIONS

Authors are requested to submit their manuscripts electronically as a PDF file by following the link and instructions at the conference home page: <http://www.kti.ae.poznan.pl/i3e/submission.html>
